

TOTAL SOLUTIONS: RETAIL, COMMERCIAL & INDUSTRIAL PROPERTIES

SMARTER PROPERTIES
POWERED BY
CERTIS'
TECHNOLOGIES

The digital age poses complex challenges for commercial properties across the globe. Today, your consumers expect more holistic experiences, while you tackle increased competition from e-commerce platforms as well as rising operational costs amid a tighter labour market.

Enhancing operational efficiency means digitalising your operations. However, it can be challenging to select the right technology and improve non-core functions, such as facilities management, cleaning and security, to boost customer experience.

CONQUER RETAIL CHALLENGES OF THE DIGITAL AGE

At Certis, our bespoke, holistic packages are designed to address your diverse property challenges. Whether you operate a leading retail mall chain, a commercial building cluster or a large industrial precinct, we work closely with you – employing design thinking to streamline and re-engineer processes. This results in technology-enabled and integrated solutions that safeguard your property; provide 24/7 advanced security, integrated facilities management and guest services; and drive cost savings and productivity throughout your operations.

DRIVE CUSTOMER EXPERIENCE AND COST EFFECTIVENESS

Rising customer expectations. Growing operational costs. The lack of communication and integration between departments and across buildings. These are some of the key issues facing the global commercial property sector.

At Certis, we understand your concerns. Harnessing leading-edge technology, we specialise in holistic, design-for-purpose solutions that will drive customer experience, lower costs and secure your desired outcomes. In partnering us, you will benefit from our extensive track record of managing operations for large retail malls, commercial buildings and industrial precincts.

SOLUTIONS THAT DELIVER

Improved **CUSTOMER EXPERIENCE** through efficient facilities management

- Offers smart monitoring through employing CCTVs with artificial intelligence, data and video analytics capabilities.
- Highlights possible areas in need of repair or redesign by utilising predictive and preventive functions for facilities and building maintenance.
- Analyses customer traffic flow to enable efficient allocation of manpower.

Increased **COST EFFECTIVENESS**

- Leverages our extensive experience and expertise in recruitment and management of unarmed security officers, call centre operators and human resource services for your workforce requirements.
- Reduces manpower needs through harnessing cutting-edge technology such as concierge robots for reception services.

Enhanced **BUILDING SECURITY**

- Offers secure access control system through leveraging in-built facial recognition technology.
- Provides accurate identification of employees and tenants through employing biometric identity solutions.

Better **INTEGRATION** of all functions with Mozart, a single, multi-service orchestration platform

- Ensures timely response by fostering greater synergy between departments through a centralised command and control centre.
- Enables 24/7 monitoring and orchestration of all functions via a single digital platform, thereby reducing manpower requirements and enhancing operational efficiency.
- Optimises resource allocation by employing smart data analytics and real-time operational data.

BRIDGE OPERATIONAL GAPS WITH SECURITY+

ADVANCED SECURITY

GUEST SERVICES

INTEGRATED FACILITIES MANAGEMENT

Security+ is a Certis creation that drives efficiency and productivity, while meeting your specific property needs and enhancing tenant and visitor experience. Centred on security and technology, this large multi-functional workforce integrates and orchestrates multi-service digital operations, comprising critical, non-core services.

Our principle of Operational-Design First lies at the heart of everything we do. We begin by thoroughly understanding your unique requirements, and then designing technology-driven solutions and streamlining processes to deliver results.

BUSINESS PROCESS RE-ENGINEERING AND OPERATIONS (BPRO®)

GAIN THE LEADING EDGE WITH OUR TOTAL SOLUTIONS PACKAGE
